

Delphi DETOXSM Project

99-BRE-6/1

Industrial Partners

Delphi Research, Inc.

Terry W. Rogers

IT Corporation

John M. McFee

Objectives

- Design, construct, and install DETOX system at IT Corps. Environmental Technology Development Center (TN) for the purpose of demonstration
- Demonstrate the DETOX system with surrogate hazardous chemicals and obtain performance data.
- Demonstrate the DETOX system via treatment of actual LANL mixed wastes and obtain performance data.
- Explore the commercial aspects of the DETOXSM process
